**Application for Mathematics and Music Teacher**

**DEAR MR BERGER,**

I am writing to apply for the position of Mathematics and Music teacher at the private middle school Rudigier. I am very interested in working at your school.

I enjoy teaching and working with young students. Mathematics is important because it helps students think clearly and solve problems. Music is important because it helps students be creative and express their feelings. I like teaching both subjects because they support different skills.

My strengths are good communication skills, patience, and motivation. I can explain mathematical topics in a simple and clear way. In music lessons, I encourage students to enjoy learning and to work together. I am friendly, organized, and reliable. I always try to create a positive learning atmosphere in the classroom.

I would be happy to become part of the private middle school Rudigier and support your students in their learning. I am motivated to learn new things and to improve my teaching skills.

Thank you for considering my application. I look forward to hearing from you.

Best regards,

---
