DEAR SIR OR MADAM,

My name is Emilia Weitegger and I am a 4th-grade student at PMS Rudigier Steyr. I am very interested in joining your company and learning more about your work. I would love the chance to get experience and see how professional projects are done.

A few years ago, I started drawing with pencils and making my own plans. I enjoy it more and more every day. This helped me become careful, patient, and organized. I really enjoy creating things step by step and thinking about how to improve them. I also love decorating rooms and spaces, so I not only like planning houses or rooms but also designing and styling them to make them look beautiful and cozy.

I am friendly and work well with others, but I can also work on my own. I am ambitious, reliable, and I always try to do my best. I think these qualities make me a good fit for this work, and I am excited to learn new skills from your team.

Thank you for taking the time to read my application. I would be happy to talk about this chance with you and learn more about your work.

Best regards,

Emilia Weitegger
