Dear Mrs Wührer,

I am writing to apply for the post of a teacher at your school. I saw the advertisement online and I am very interested in joining your team.

I am 13 years old and I am currently attending Rudigier school.

I believe I am a good fit for the job, because I love working with younger children and I am really patient and friendly. Although I do not have much work experience, I am very organised and I love working in a team. I have a really big family with many smaller children, which has taught me responsibility and patience.

I am confident that I can teach the children at your school many important things and help the team of teachers with anything. I can also adapt quickly which will help me work with the students in your school.

Thank you for considering my application.

I am available for an interview at any time and I would love to talk more about how I can help at your school.

Best regards,

Laurena Schaumberger
